Project Title	Electric Vehicles Market Analysis Using Tableau
Maximum Marks	3 Marks

Project Proposal (Proposed Solution) template

This project proposal outlines a solution to address a specific problem. With a clear objective, defined scope, and a concise problem statement, the proposed solution details the approach, key features, and resource requirements, including hardware, software, and personnel.

Project Overview	
Objective	To analyze electric vehicle sales, driving range, battery technologies, manufacturer performance, and market trends using Tableau dashboards.
Scope	The project covers EV sales analysis, manufacturer and country comparisons, battery type distribution, driving range, charging efficiency, and environmental impact using interactive visualizations.
Problem Statement	
Description	EV market data is spread across multiple categories, making it difficult to compare manufacturers, sales performance, battery technologies, driving ranges, and market trends.
Impact	The analysis will help users identify top-performing manufacturers, understand market trends, compare EV technologies, and make informed business decisions.
Proposed Solution	
Approach	Collect the EV dataset, clean and prepare the data, analyze it using Tableau, and create interactive charts and dashboards to compare key performance indicators.
Key Features	□ EV sales by category and manufacturer. □ Average driving range comparison. □ Battery type and technology analysis.

	□ Manufacturing country comparison. □ Sales trends and environmental impact analysis. □ Interactive filters and dashboards.

Resource Requirements

Resource Type	Description	Specification/Allocation
Hardware	**Laptop or Computer**	**Intel core i5**
Computing Resources	CPU and processing	Dual core or higher processor
Memory	RAM specifications	8 GB RAM minimum
Storage	Space for dataset and project files	256 GB SSD or higher
Software		
Frameworks	Data analysis tools	Tableau Desktop
Libraries	Data processing tools	Python, pandas
Development Environment	Software and tools	Tableau Desktop, Microsoft Excel
Data		
Data	EV Market Dataset	CSV or Excel dataset containing sales, manufacturer, battery type, range, and related EV attributes
